

Motorized Window Actuator

The Motorized Window Actuator System is ideal for hard to reach windows that need to be openable through motorization and automation systems. The motors are built to last for many years and come in varying details fitting all needs for commercial towers and residential skylight purposes. The elegant system adds class and comfort to your home. And the motors are built in compliance with Fire and Smoke Safety Regulations.

Motor Details:

Depending on the size, span, wind loads, and location details of the windows, we use from a variety of motor options available, that suit any and all clients and architects needs.
